Extending tram services to Beeston and Chilwell

Artist's impression of tram services travelling through Beeston town centre

Nottingham Express Transit's Phoenix Park tram Park & Ride just off Junction 26 of the M1 is an alternative option for those travelling from the motorway into Nottingham during the works. Journey times are just 20 minutes and parking is free for those using the tram service.

For more information about these works or about the NET Phase Two tram extension in general, please visit www.thetram.net/phasetwo or call the NET Phase Two Construction Hotline on (0115) 924 24 54.

Works at the A52 Bardills roundabout

The works to extend Nottingham's tram service to the south and south west of the city to Chilwell via the QMC and Beeston and Clifton via Wilford are well underway.

As part of the NET extension to Chilwell, works are due to take place from Sunday 20 October for up to two weeks to move electricity and communications cables at the A52 Bardills roundabout**.**

This work is needed so that next spring the traffic capacity at the island can be increased to accommodate traffic entering and exiting the tram Park & Ride site, which is currently being installed off Toton Lane.

The timing of the works is being co-ordinated with the Highways Agency to take place during both weeks of the Nottinghamshire and Derbyshire schools half-term, when traffic levels will be lighter on the road network.

Due to the nature of the works and the location of the utility services, various temporary traffic restrictions are needed, please see maps 1 and 2 opposite for more details.

Pedestrians will be able to continue to walk around the Bardills roundabout using the existing crossing facilities.

All businesses in this area will remain open as usual during the works.

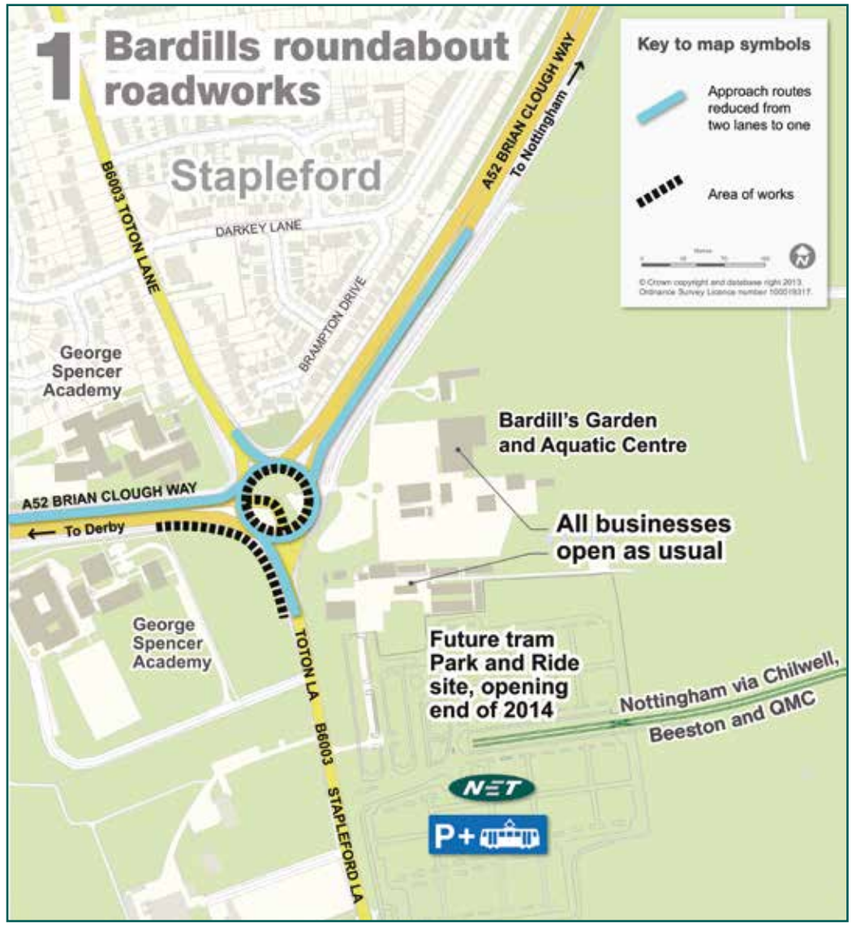

Once all the works are completed at the end of 2014, you'll be able to travel from the new 1,300 space Toton Lane Park & Ride site to the Queen's Medical Centre in approximately 20 minutes and the Old Market Square in Nottingham city centre in just over 30 minutes.

TRAVEL RESTRICTIONS TO AND AROUND BARDILLS ROUNDABOUT DURING THE WORKS

- Traffic on all four approach routes to the Bardills roundabout (i.e. from the A52 and Toton Lane) will be reduced to one lane (see map 1).
- Traffic travelling around the roundabout itself will be reduced to a single lane (see map 1).
- For the first week of the works, the centre lane through the roundabout, which can be used to access Toton Lane/Stapleford Lane normally will be temporarily closed.

  Drivers will still be able to access Toton Lane/ Stapleford Lane by driving around the roundabout (see map 1).
- To prevent queuing traffic from the Bardills works affecting the M1, there will be no access onto the A52 Nottingham bound carriageway from Junction 25 of the motorway. **Motorists travelling from the M1 are strongly advised to use an alternative route, as lengthy diversions will be in place from Junction 25 signposting vehicles to the A52 towards Spondon and Derby** (see map 2).

We're sorry for any inconvenience caused by the tram works at Bardills roundabout, and we would like to reassure you that we will do all we can to keep disruption to a minimum.
