Nottingham Ring Road
Improvement Scheme

Building a better Nottingham

Find out about major improvements to the Ring Road / Hucknall Road roundabout

Preparatory works started in April to upgrade the Ring Road / Hucknall Road roundabout, located near to the City Hospital and Nottingham High School's sports ground. These initial works included the installation of a new culvert over the Day Brook and earthworks to build a new embankment to support the widened road.

Roadworks on the highway are now scheduled to start on 11 August. The construction programme has been carefully designed to allow traffic to continue to use the lanes on all approaches to the roundabout, minimising disruption. However there will be times when lanes restrictions are required on the approaches to the roundabout and a temporary speed limit will be in place. These works are expected to be completed in spring 2015.

The works will:

- Create additional capacity by increasing the number of Ring Road entry lanes and circulating lanes
- Provide new and upgraded pedestrian and cyclist facilities across all four arms of the roundabout, particularly important given the close proximity of the City Hospital, located near to this junction on the A611 Hucknall Road
- Reconstruct and improve the carriageway

Key Dates

August 2014	Completion of preparatory works Start works on the centre of the roundabout
August – October 2014	Utility cable diversions Construct north-west and north-east corners of the roundabout
Autumn half-term holiday	Construct new central reservations and traffic island **Lane restrictions on Hucknall Road on both approaches during this phase**
November 2014	Construct new centre for the roundabout
January – February 2015	Construct new kerb lines and install drainage at the south-east corner Access to businesses and parking maintained at all times.
Spring half-term holiday	Construct new kerb lines and install drainage at the south-west corner Access to businesses and parking maintained at all times.
March 2015	Install a traffic island on the south side for a new pedestrian crossing
April 2015	Road resurfacing and traffic light installation. Works complete

A public information event about the works will be held at:

Five Ways Public House on Edwards Lane on 7 August between 4 – 7pm

The Ring Road project team will be on hand to answer your questions and talk through works in the area. Information displayed at this event will also be available on the website - **www.nottinghamcity.gov.uk/ringroad**

Additional public information events will be arranged throughout this stage of the Ring Road Improvement Scheme.

If you have further queries, please contact the project team on (0115) 876 5287 or call the hotline on (0115) 924 24 54.
