Local List Proposal

Description

Former tram shed believed to have been built to house horse drawn, double decker trams. Right hand building first (pre WWI) then extension interwar. 1887 tram sheds across the road. The significance of the Isandula Road property is that it was built to hold the horse trams (and horses) acquired to operate the third route of the Nottingham & District Tramways system, which opened to Basford on 11th August 1879. It is believed that the right-hand half of the property is tall because it had to accommodate double-decker trams.
