THE INDICES OF DEPRIVATION 2019

RESULTS FOR BASFORD, BERRIDGE AND SHERWOOD AREA COMMITTEE

Background

The Ministry of Housing, Communities and Local Government (MHCLG) published the new Indices of Deprivation 2019 on 26th September 2019.

What are the Indices of Deprivation?

The Indices of Deprivation measure relative levels of deprivation between small areas in England. They are an important resource to aid policy development and area working. They can be used to prioritise areas most in need of services; they can help to determine the most appropriate services for a given area; they can help to compare the characteristics of one area with another; and they can be used to support funding bids.
The Indices of Deprivation measure a broad concept of deprivation, made up of several distinct dimensions, rather than just financial deprivation. The dimensions (domains) combine to give an overall 'Index of Multiple Deprivation'.

This report summarises the results for Basford, Berridge and Sherwood Area Committee. A compendium of all of the results for Nottingham City is also available.

Methodology

The methodology used for the 2019 Indices is very similar to that used for previous Indices. A range of statistical indicators have been collected and grouped under **seven domains**. There have been a few minor changes to some indicators used since 2015.

The overall score, the Index of Multiple Deprivation (or IMD), is calculated from the domain results. Some domains carry more weight in the overall score than others. The table below shows the domains and the weights assigned to them to produce the IMD. The weights have remained the same since the 2004 Indices.

Table 1: Domain and Weights for the IMD 2015

Domain	Domain weight
Income deprivation	22.5%
Employment deprivation	22.5%
Health deprivation and disability	13.5%
Education, skills and training deprivation	13.5%
Barriers to housing and services	9.3%
Crime	9.3%
Living environment deprivation	9.3%

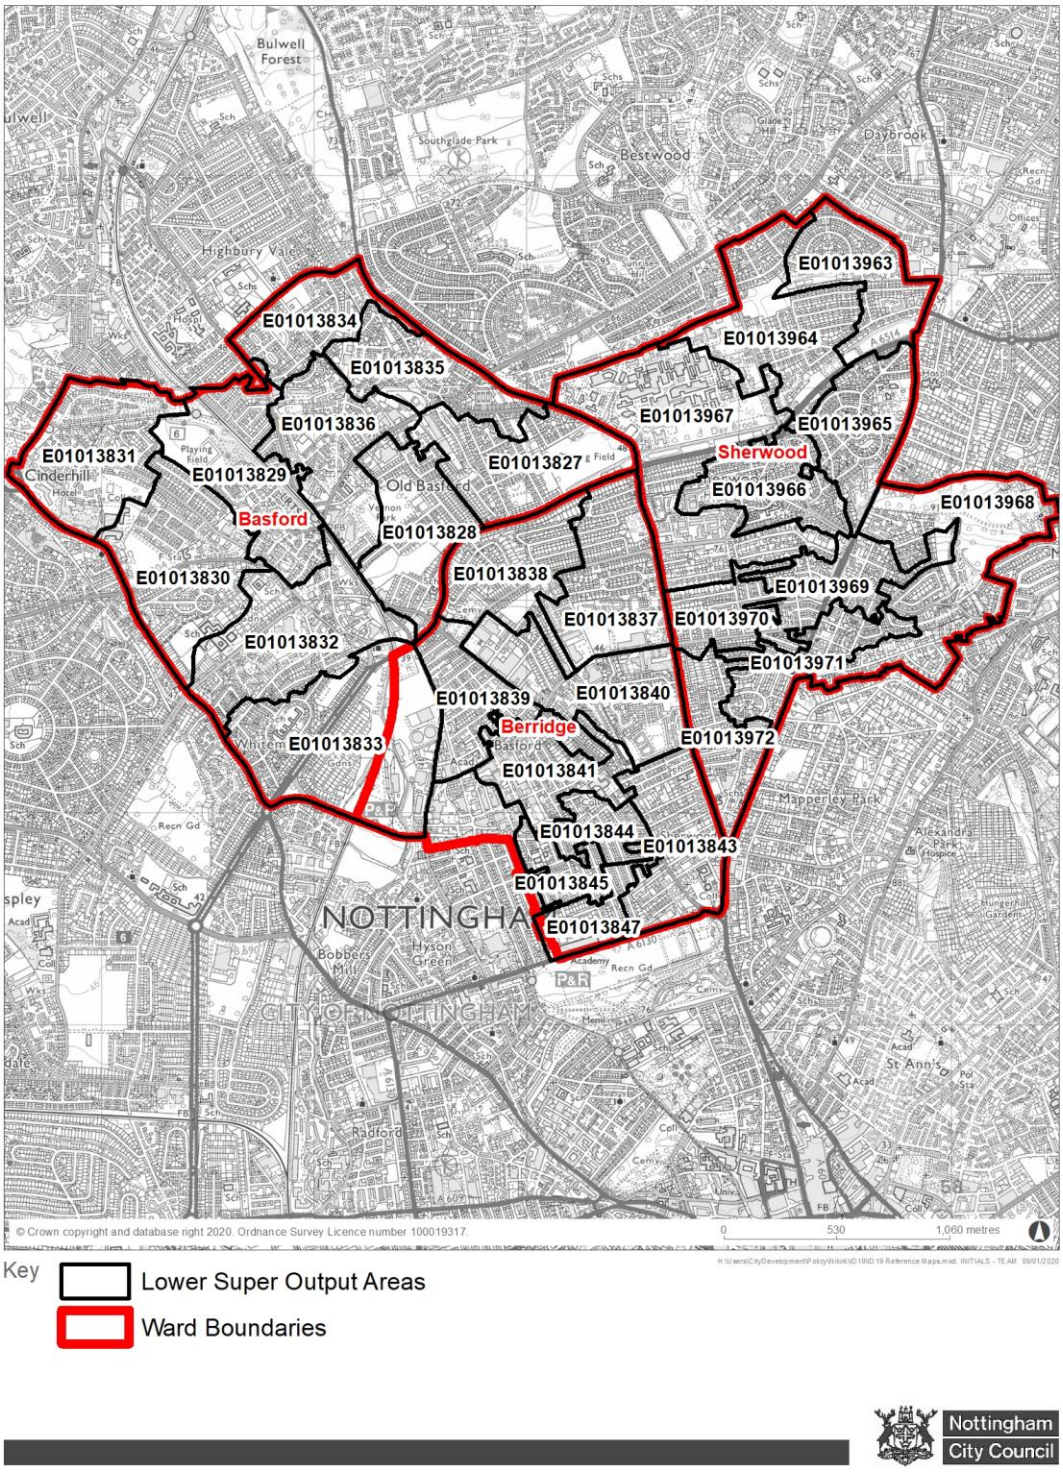

In addition, the two supplementary age-specific Indices (Income Deprivation Affecting Children and Income Deprivation Affecting Older People) have again been published.

Most of the indicators relate to 2015 or later and the majority of denominators are taken from the 2015 mid-year estimates.

The units for analysis are **Lower Super Output Areas** (LSOAs). There are 182 in the City (up from 176 following the 2011 Census), and the majority have a population of between 1,300 and 1,700. Each of the 32,844 SOAs in England has been assigned a score and rank for the IMD, the seven domains and the two supplementary Indices.

All LSOAs have a nine-character reference number, but have not been given official names. In order that these may be identified a reference map for Basford, Berridge and Sherwood Area is below. Where LSOAs are referred to in the body of the report, an approximate description of the location has been included. This description is for guidance only.

Lower Super Output Area Reference Map

THE INDEX OF MULTIPLE DEPRIVATION

The map on the next page shows how the Area's LSOAs rank out of the 32,844 in England. The darkest shaded areas are those that rank amongst the 10% most deprived in the country. In the past, this has proved a common method of determining an area's eligibility for government grants and additional funding. Those in the next category (10-20%) are also eligible in many cases.

The 2019 Index of Multiple Deprivation (IMD) results are also summarised below, in Tables 2 and 3. Information from 2015, 2010 and 2007 is also given to show how areas have changed over time relative to other areas. Note, changes in rank do not show whether areas have become more or less deprived in real terms.

Table 2: The Extent of Extreme Multiple Deprivation

	2019	***2015***	***2010***	***2007***
Area LSOAs in worst 10% nationally	4	*4*	*2*	*2*
Area LSOAs in worst 20% nationally	15	*18*	*12*	*12*

Table 3: SOAs Most Affected by Multiple Deprivation

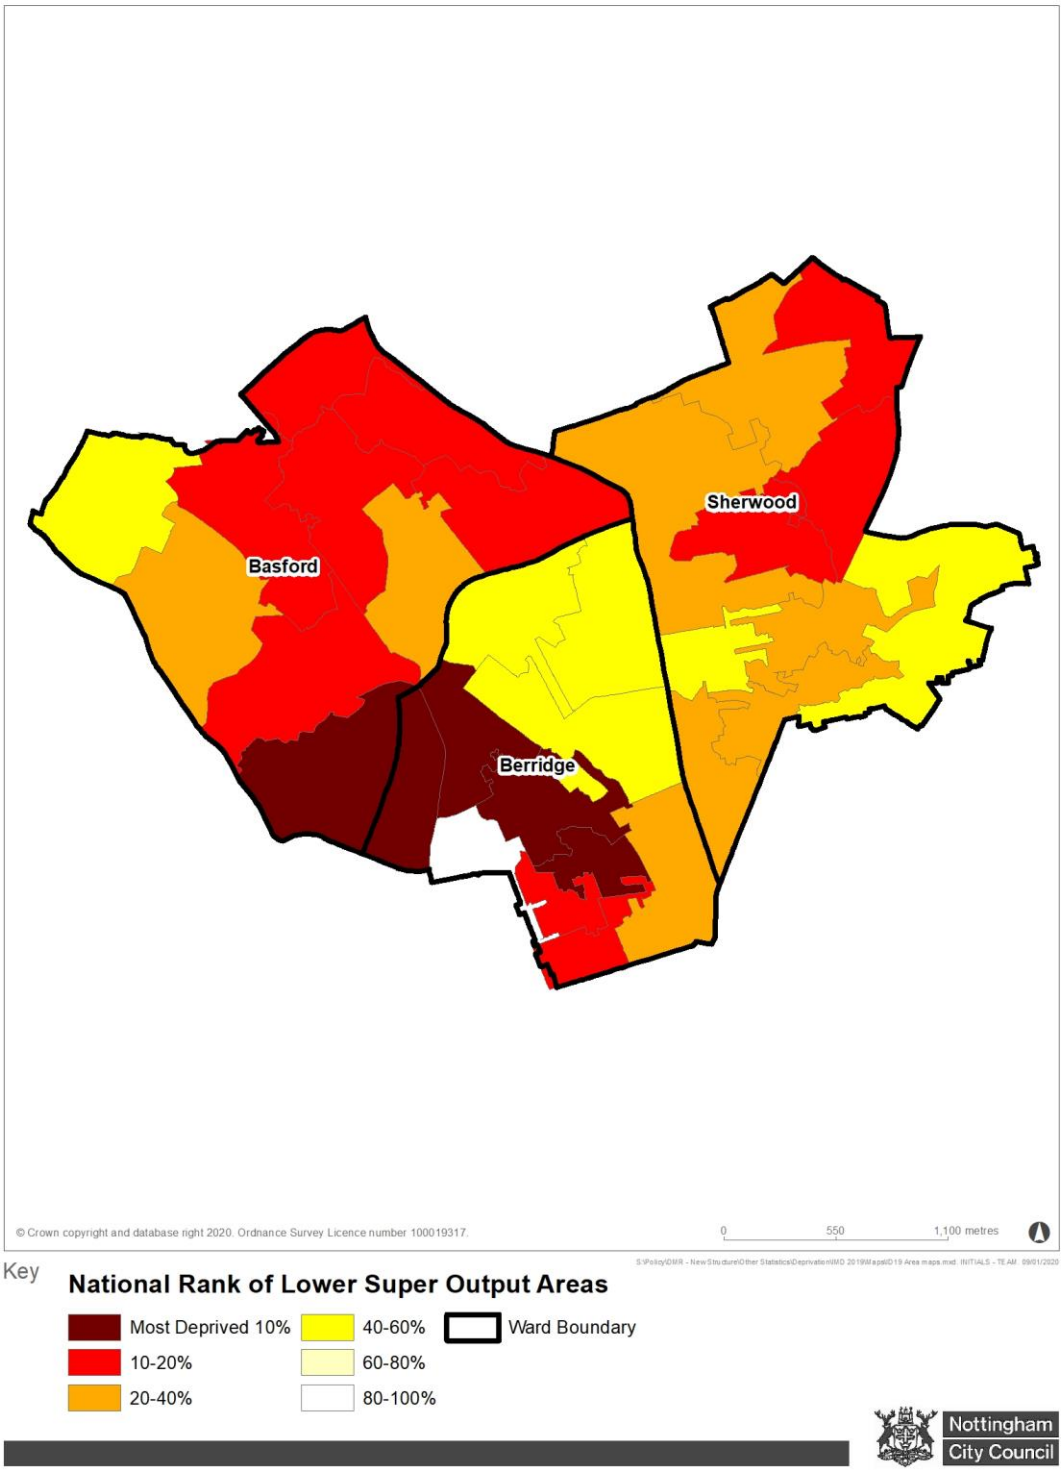

Area Rank 2019	**Ref**	**Ward**	**City Rank 2019**	**National Rank 2019**	***National Rank 2015***
1	E01013839	Berridge	39	2317	2923
2	E01013841	Berridge	42	2577	3072
3	E01013833	Basford	54	3018	2278
4	E01013844	Berridge	56	3253	2344
5	E01013963	Sherwood	70	3992	3868

Source for Tables 2-3: Ministry for Housing, Communities and Local Government, 2019

The most deprived LSOAs in the Area are in Berridge ward – around New Basford (3839 and 3841). These rank 39th and 42nd out of 182 LSOAs in the City.

These LSOAs, and two others rank within the most deprived 10% of LSOAs nationally.

Indices of Deprivation 2019: Index of Multiple Deprivation

DOMAIN RESULTS

Income Deprivation

Results from the Income Deprivation domain are shown on the following map, and summarised below in Tables 4 and 5.

Table 4: The Extent of Extreme Income Deprivation

	2019	***2015***	***2010***	***2007***
Area LSOAs in worst 10% nationally	3	*5*	*2*	*1*
Area LSOAs in worst 20% nationally	15	*14*	*12*	*14*

Source for Tables 4-5: Ministry for Housing, Communities and Local Government, 2019

There is a similar picture for Income deprivation with the two LSOAs making up New Basford ranking as the two most deprived in the Area.

In total, 3 LSOAs rank within the most deprived 10% nationally and 15 rank in the most deprived 20%.

Indices of Deprivation 2019: Income Deprivation

Source for Tables 6-7: Ministry for Housing, Communities and Local Government, 2019

The two LSOAs making up New Basford (3841 and 3839), rank as the two most deprived in the Area for Employment deprivation, and the only two ranking within the most deprived 10% nationally.

Four LSOAs rank as less deprived than the national average – three in Sherwood (3838, 3840, and 3837) and one around Bagnall Road in Basford (3840).

Source for Tables 12-13: Ministry for Housing, Communities and Local Government, 2019

No LSOAs rank in the 10% most deprived nationally for Barriers to Housing and Services, and just one (3831, covering Bagnall Road in Basford) ranks in the 20% most deprived.

The Area contains the least deprived LSOA in the City on the domain – 3970 in Central Sherwood. This LSOA ranks in the least deprived 10% nationally for Barriers to Housing and Services.

Source for Tables 16-17: Ministry for Housing, Communities and Local Government, 2019

Four LSOAs in the Area rank amongst the 10% most deprived in the country for Living Environment deprivation, all of which are in Sherwood ward.

This domain includes air quality and traffic casualties so the proximity to Mansfield Road may have affected the positions for these LSOAs.

Income Deprivation Affecting Children

26.4% of children in the Area (just over 2,600) are affected by income deprivation. This is lower than the City average of 34.2%.

Table 18: The Extent of Extreme Income Deprivation Affecting Children

	2019	***2015***	***2010***	***2007***

Income Deprivation Affecting Older People

22.7% of people of pensionable age in the Area are affected by income deprivation, lower than the City average of 26%. This is the equivalent of 1,760 people.

Results from the Income Deprivation Affecting Older People index are summarised below.

Table 20: The Extent of Extreme Income Deprivation Affecting Older People

Source for Tables 20-21: Ministry for Housing, Communities and Local Government, 2019

The Area contains the 4th and 6th most deprived LSOAs in the City for Income Deprivation affecting Older People – both also ranking in the top 500 most deprived nationally.

Three other LSOAs rank within the most deprived 10% in the Country.

Indices of Deprivation 2019: Income Deprivation Affecting Older People

Further information

If you have any queries about the Indices of Deprivation, please contact the Policy and Research Team in the Development Department at Nottingham City Council on 0115 8763979.
